Introduction
The East Islip School District’s Academic Intervention Services (AIS) plan was developed to meet the requirements of the Section 100.2(ee) revisions to the Commissioner’s Regulations. School districts are required to provide instructional and student support services to help students achieve the New York State Learning Standards.

East Islip School District’s Mission Statement
“Our mission is for East Islip to be a District of Excellence and to educate students with the skills and knowledge to become exceptional learners and leaders. We will provide a safe and positive learning environment in partnership with our greater community.”

Definition of Academic Intervention Services (AIS)
http://www.emsc.nysed.gov//part100/pages/1001.html#g

Academic Intervention Services are defined as additional instructional services that supplement regular classroom instruction and student support services designed to help students achieve the New York State Learning Standards. Academic Intervention Services are direct services intended to assist students who are identified as being at-risk of not achieving the New York State Learning Standards in English Language Arts and mathematics in grades K-12 and in social studies and science in grades 4-12. In addition, the services are provided to those students who are identified as being at-risk of not gaining the skills and knowledge necessary to meet or exceed designated performance levels on the New York State assessments.

Each year the elementary and intermediate state assessments will have four designated performance levels on each assessment:

- **Level 1** – Student is well below proficient in standards for this grade level.
- **Level 2** – Student is not proficient in Common Core Learning Standards for this grade level (partial but insufficient).
- **Level 3** – Student is proficient in Common Core Learning Standards for this grade level.
- **Level 4** – Student excels in Common Core Learning Standards for this grade level.

School districts shall identify students who receive AIS through a two-step process. First, all students performing below the median scale score between a level 2/partially proficient and a Level 3/proficient on a grade 3-8 ELA or mathematics state assessment shall be considered for AIS. Upon identification of students for consideration for AIS, districts shall then use a district-developed procedure, to be applied uniformly at each grade level, for determining which students shall receive AIS. After the district consideration of student's scores on multiple measures of student performance, the district determines whether the student is required to receive AIS.

Academic Intervention Services must be initiated no later than the beginning of the semester following a determination that a student needs such services.
East Islip School District  
**Board of Education’s Resolution**

On February 24, 2014, the East Islip School District’s Board of Education passed the following resolution:

Motion by Mr. Behan to approve the following resolution:

**Whereas,** students scoring below a state-generated cut score on Grades 3-12 assessments are required to receive academic intervention services provided by the District, and,

**Whereas,** students scoring above the cut score on New York State Assessments are not mandated to receive such services,

**NOW THEREFORE, BE IT RESOLVED,** effective beginning in the 2014/2015 school year, students scoring above the New York State cut score may be provided academic intervention services in the discretion of the administration but, subject to the receipt of written parental consent; and

**BE IT FURTHER RESOLVED** that this resolution will be reviewed annually for reconsideration;

Mr. Reed asked how this resolution changes the current policy and if this change will create more administrative time. Mrs. Rozzi explained that the district is already asking for parental consent when a student scores above the cut score and feels most parents will still opt for the services. Mrs. Becker-Santa added that the State did change the cut off scores this past August after parent notices had already gone out; therefore, we were able to go forward with the extra services. Mrs. Phillips stated she was a little concerned with a possible decline in student performance and asked if this will be monitored, to which Mrs. Rozzi responded it would be monitored well.

Motion seconded by Mrs. Phillips. Mr. Reed opposed. Motion carried.

Therefore, during the 2015-2016 school year, (as was the procedure in 2014-2015) students who took the New York State Assessments in English and/or math who scored above the New York State identified cut scores will not be placed in Academic Intervention Services support classes unless their parent/guardian has provided written approval. A letter will be sent home to the parents/guardians of all such students.

III. Instructional Level Expectations for Reading

IV. Determining Need: Entrance and Exit Criteria for Grades 4-5 Math

V. Levels of Service

VI. Parental Notification and Involvement
I. AIS Identification Procedure

If a student has been identified as potentially needing AIS an IST meeting must be scheduled. Based on multiple data points as per the AIS plan the teacher will provide the committee with information on the specific child's academic performance. The committee will review these data and make a determination as to which students will be recommended to receive services. Members of the committee will include but not be limited to: Principal, School Psychologist, General Education Teacher, AIS representative, Resource Room Teacher

During the last trimester of each school year the IST Team will meet with each classroom teacher to discuss the progress of each of their students. At this meeting a list will be generated of students who will be recommended to receive services in the upcoming school year.
## II. Determining Need: Entrance and Exit Criteria for Grades 4-5 ELA

*Note: Multiple Measures are always used when determining AIS eligibility*

Scoring below an average of Level 2 or scoring below the median scale score based on NYSED annual recommendation. | Able to meet grade level expectations. Attaining proficiency at Level 3 or higher.  
Scoring above the median scale score based on NYSED annual recommendation or higher than Level 3. | Focused tiered instruction by classroom teacher, AIS provider, or certified teacher/interventionist. |
| iReady | Fall, Winter, Spring | Below Grade Level | Data supported improvement on multiple measures over time. | Focused tiered instruction by classroom teacher, AIS provider, or certified teacher/interventionist. |
V. Levels of Service

At the elementary level, appropriate certifications for instructional assignments in mathematics, social studies, and science include Common Branch, PreK-6, N-6, and others, as defined in Section 80.15 of the Commissioner’s Regulations. For the provision of AIS in literacy/reading, however, reading certification is strongly recommended. In our elementary schools, these certified teachers are sometimes referred to as interventionists.

4-5 ELA Monitored Services:

- Periodic Communication Between the Classroom Teacher and Interventionist
- Review(s) of Student Progress
- Review of Classwork and Periodic Assessments

4-5 ELA Academic Intervention Services:

- Small Group Tiered Support
- Periodic Communication between the Classroom Teacher, AIS Teacher or certified teacher/interventionist

4-5 Mathematics Monitored Services:

- Periodic Communication Between the Classroom Teacher and Interventionist
- Review(s) of Student Progress
- Review of Classwork and Periodic Assessments

4-5 Mathematics Academic Intervention Services:

- Small Group Tiered Support
- Periodic Communication between the Classroom Teacher, AIS Teacher or certified teacher/interventionist

I. AIS Identification Procedure

In the spring, the committee will convene to review students who have been identified as potentially needing AIS. This identification will be based on multiple data points as per the AIS plan. The committee will review these data and make a determination as to which students will be recommended to receive services. Members of the committee will include, but not be limited to: Principal, School Psychologist, School Counselor, Content Area Teacher, IST Representative.

In the spring, a list will be generated of students who will be recommended to receive services in the upcoming school year.

<td>5-week and 10-week intervals</td>
<td>Certified Faculty</td>
<td></td>
</tr>
<tr>
<td>• increase quantity of students’ independent reading</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Following administration of the NYS ELA assessment in the spring. Instruction will address identified areas. Continuous formal and informal assessments will be conducted to monitor progress.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Monitoring Services**

Students will be monitored via a review of iReady reports, interim reports and report cards.

School counselors, teachers and administration will review these reports.

For those whose interim reports suggest low progress, conferences with the core ELA teacher will be held to identify areas of challenge. School counselor and/or the building team will meet with the student. Parents will be notified. A failing ELA grade on the quarterly report card will result in consideration of placement back into an AIS ELA class.

VIII. Parental Notification and Involvement
I. AIS Identification Procedure

Grade 8 into Grade 9

At the end of January, at team meetings, teachers will utilize a spreadsheet to recommend students and review course recommendations. This information will be given to the high school assistant principal in charge of scheduling and AIS. A copy will also be given to the building principal and the Director of Careers and Student Services.

In March, course verifications will be posted on the Infinite Campus Parent Portal which will include initial recommendations.

In August, the high school will generate letters to parents to inform them that their students will be receiving AIS services in the fall.

Grades 9-12

Teachers will make recommendations at the end of January.

In March, course verifications will be posted on the Infinite Campus Parent Portal which will include initial recommendations.

In August, the high school will inform parents via East Islip Infinite Campus Parent Portal that their students will be receiving AIS services in the fall, a letter will follow.

VI. Description of Academic Intervention Services for Grades 9-12

Monitoring

Monitoring: The IST consisting of teachers, school counselors, social workers, school psychologists and administrators will monitor the student’s achievement to ensure he/she is making appropriate progress toward meeting the New York State & Next Generation Learning Standards. Adjustments in service may be made according to the child’s progress.

Attendance Monitoring: The IST Team (assistant principal, school counselor, psychologist, teachers and the social worker) will monitor the attendance of students who are not meeting the New York State Standards due to poor attendance. This monitoring will include more frequent parent contact, and referrals to the IST/PPS committee.

AIS

At the secondary level (grades 7-12) approvable certifications for AIS instructional assignments include certification in reading (80.7) and content certifications in English, math, science, social studies, and others as specified in Section 80.16.

Classroom-based Intervention: The classroom teacher provides the student with extra support within the regular classroom setting. This might include extra attention, rephrasing directions, modifying assignments, etc.

Academic Counseling: The School Counselors provide support for students who are experiencing difficulty with the social/emotional, organizational or interpersonal demands of meeting the New York State Standards.

IST Meetings: Weekly meetings of school administrators, school counselors, school social workers and school psychologists that discuss and monitor selected students that are at risk socially/emotionally and academically.

Attendance Committee: Meetings that include school administrators, school social workers, school psychologists, school counselors, and attendance support staff to discuss student attendance concerns and determine letters to be sent and home visits to be made.

Lab: Course based on need and data driven. Selection based on multiple measures including teacher recommendation and administrator review. (Meet on every other day schedule or added section to core course.)

Consultation: A teacher will consult with and work collaboratively with the teachers who are providing special education services to a student, to ensure the continuity and congruency of support. Services will be adjusted according to the child’s needs and progress.

Notification of AIS in course description guide
APPENDICES

- Response to Intervention (RTI) Parent Notification for Grades K-4 (CES & RCK)
- Response to Intervention (RTI) Parent Notification for Grades K-4 (TP & JFK)
- Academic Intervention Services (AIS) Parent Notification for Grades 5-9 (JFK, RCK, MS & HS)
Dear Parents/Guardians:

The East Islip School District is committed to ensuring that all our students receive the appropriate interventions necessary for them to be successful. The East Islip School District has established a Response to Intervention ("RtI") program in Kindergarten through 4th grade. RtI is a process used in schools to provide well-designed interventions that closely monitor students’ progress, while providing additional instructional support.

Students were assessed with a set of universal screening tools. The assessments were designed to determine growth and development across pre-reading and/or reading skills that are important to long-term literacy success. Results from the assessments are also used for school staff to help them identify the skills that have been learned as opposed to the skills that require further instruction.

If your child performed in the low average, below average or well below average range on one or more of the assessments, he or she is a candidate for additional literacy support.

Dear Parents/Guardians

The East Islip School District is committed to ensuring that all our students receive the appropriate interventions necessary for them to be successful. The New York State Education Department requires schools to provide Academic Intervention Services (AIS) to students who may be at risk of not meeting the New York State Grade Level Learning Standards which are benchmarks that students must achieve to be college or career ready.

Based on your child’s performance on a New York State Assessment and/or locally-determined criteria, we will be providing Academic Intervention Services to better prepare your child to meet these standards. This determination is based on district standardized scores, staff recommendations, and/or performance on the New York State Assessment. Information on your child’s score(s) on the New York State Assessment(s) can be found on the Parent Portal under Campus Backpack.

</tbody>
</table>

* In accordance with the Board of Education regulation adopted on February 24, 2014, a parent’s permission must be given in order to allow the East Islip School District to place your child in an AIS class if your child’s New York State Assessment results do not mandate the district to provide these services.

Ongoing assessment will help determine the specific level of intervention and the need to continue or terminate these services. The overall objective for providing these services is to support your child in achieving success this year, as well as increase the likelihood that your child will be successful in meeting the NYS Graduation requirements.

We encourage your involvement in this process by supporting your child at home. This can be done by checking your child’s agenda book and homework on a nightly basis, providing your child a place to study, and keeping in contact with your child’s teachers.

Please fill out and sign page two of this letter and return it to your child’s school. If you have questions or require additional information, contact your child’s teacher or my office.

Sincerely,
Academic Support Services
