2:15pm WATER SLIDE
3:00pm Lacrosse
3:45pm Snack & Dismissal

PREP PROGRAM
For children ages 3-5. Specialized Program for Preschool Campers designed by NYS Certified Teachers. Half Days Available.

Our Prep program is a perfect introduction to the camp experience. Some children may be transitioning away from their parents for the first time. This can be hard for the camper (and parent)! This program will assist the campers through this transition and provide a customized schedule that is specifically designed for this age group. Their day will be filled with age appropriate activities and they will have special dedicated spaces to allow them to feel comfortable while learning and playing.

The Prep Program is available for Half Day and Full Day options. Campers can sign up for 1 to 10 weeks for the summer (There is no minimum!)

CAMPS

GRADUATE TRAVEL PROGRAM
Our Graduate Travel Program is open to 6th, 7th & 8th Graders. Daily Trips to fun and exciting locations all over Long Island and the Tri-State area.

As our campers get older, they want more out of their camp experience. We have designed a program that gives our campers the opportunity to travel to fun locations like SPlish SPlash, Great Adventure, iFly Trapeze, The Adventure Park, CSH Aquarium, a Broadway Show, Coney Island and many more. Each day, campers will venture off to a new location!

Check out our Graduate Calendar on our website for a complete list of trips! www.Campus-Camps.com

PHD TRAINING PROGRAM
Our PhD Training Program is open to 9th & 10th graders looking to enjoy the camp experience while learning about the available jobs at camp from our talented & experienced staff. Many camps offer a Counselor in Training Program where 9th and 10th graders shadow a Camp Counselor for the summer.

We take the traditional CIT Program to the next level with our Pre-Hire Development Program (or PhD Program).

We feel it is important for these campers to experience more! Our PhD’s will learn from our Counselors, Specialists, Leadership and Office Staff. They will be prepared for any summer camp job or jobs outside of camp. This program is filled with weekly training meetings to discuss issues that arise at camp and allow them to work on resumes and job skills that will help them in the future. The PhD Campers will have the opportunity to venture off campus on trips with our Graduate Program and will also have the chance to spend some time each day interacting with their peers and participating in camp activities.

EDUCATIONAL ACADEMIES
For Campers entering 3rd grade and up, our Academy Program provides a great way to learn and grow during the summer. Our Academies cover topics in Art, Baking, Computers, Cooking, Science, Technology and Video Games. Campers will spend half their day in the Academy Program and can spend the remainder of the day in our Day Camp program. Academy programs are taught by certified teachers and subject matter experts in those topics.

SPORT CAMPS
Campus Camps offers some great Sport Camps too! Campers can sign up for a week long experience learning from some of the best high school and college coaches and players on Long Island.

Our Sport Camps Schedule includes camps in: Basketball, Field Hockey, Football, Hockey, Lacrosse, Multi-Sport, Soccer, and Volleyball. Each camp will focus on teaching the sport through drills and games. Camp is open to all skill levels.
